

Presentation of an Educational Manual for the Reserve “Dnepro-Sozhsky”

Liudmila Skakun, editor of the digital addendum for cards, Minsk, Belarus

Natalia Sviatkina, content expert of the project, Minsk, Belarus

Abstract

When working on the route along the Reserve “Dnepro-Sozhsky”, an idea of compiling an educational manual was born. The choice of its format is primarily determined by the fact that accompanying texts along the route could not accommodate the entire large block of the necessary additional information, which required access to the Internet. Moreover, when working on the project, a team of interested experts was formed who had a desire to make a highly-requested original product.

It was possible to embody the idea and make the manual “alive”, first of all, thanks to the artistic solution of the famous Belarusian graphics artist and teacher Eleonora Ivanovna Lyakhnovich. Tasks from this manual have already been tested in practice with pupils and considered successful.
